

Covid-19 Tracker App

Created by Team Yankee

Problem:

In Today's World, Covid is the most talked thing and it's a major problem. This virus has had a rapid spread around the world. The solution to this problem is to educate people about this virus and how dangerous it could be. In order to do so, this app will educate the people as well as it will also allow people to check their symptoms.

Who is experiencing this problem?

Everyone in the world.

What is the problem?

People not being able to know if they are around someone who has test positive recently.

Where does the problem present itself?

Retail Stores, Grocery Store, Entertainment Locations.

Why does this happen?

People need an easy way to find out about people around them with the virus.
